1 English for AI

Beginner AI Skills for Everyday Decisions

2 Welcome

Welcome to **English for AI: ESL-Oriented AI Fundamentals**.

This course helps English learners use AI tools in safe, clear, and useful ways. You will practice English while you learn how to write prompts, compare choices, check sources, describe visuals, and explain your thinking.

AI can help you think and communicate. AI does not make the final decision for you.

Course Time

- 5 synchronous classes, 2 hours each
- 5 self-practice assignments, 2 hours each
- 20 total hours

2.1 What You Will Make

You will build a portfolio called:

English AI Decision Toolkit

Your toolkit will include prompts, vocabulary, sentence frames, decision matrices, source-checking work, a visual description, a speaking script, a safety checklist, and a final reflection.

2.2 Course Map

Part	Time	Main Skill	Portfolio File
Class 1	2 hours	AI basics and English prompts	Class 1 - My First English AI Prompt.md

Part	Time	Main Skill	Portfolio File
Self-Practice 1	2 hours	Prompt variations and vocabulary	Self-Practice 1 - Prompt Practice and Vocabulary Log.md
Class 2	2 hours	Compare choices	Class 2 - English Decision Matrix.md
Self-Practice 2	2 hours	Revise prompts and decisions	Self-Practice 2 - Revised Prompt and Matrix.md
Class 3	2 hours	Check AI answers with sources	Class 3 - Source-Grounded Answer in English.md
Self-Practice 3	2 hours	Evidence and paraphrase	Self-Practice 3 - Source Check and Paraphrase.md
Class 4	2 hours	Visual and speaking communication	Class 4 - Visual Description and 60-Second Script.md
Self-Practice 4	2 hours	Visual and speaking practice	Self-Practice 4 - Visual Speaking Practice.md
Self-Practice 5	2 hours	Portfolio completion	Self-Practice 5 - Presentation Draft and Checklist.md
Class 5	2 hours	Final toolkit and presentation	Final project + AI decision assistant prompt

2.3 Course Promise

In this course:

1. You write in English.
2. You use simple, clear prompts.
3. You protect private information.
4. You check important answers.
5. You make the final decision.

 Privacy Rule

Do not put private information into an AI tool. Do not upload private documents. Use safe examples and public information for class practice.

3 Orientation

3.1 Course Purpose

This course teaches AI as an English communication and decision-support skill. It is not a programming course. You will use AI to practice English, organize ideas, compare options, read sources, and prepare short communication tasks.

3.2 Who This Course Is For

This course is for English language learners with almost no previous AI knowledge. Beginner and low-intermediate students can use the sentence frames and templates. Higher-level students can write longer answers and add more detail.

3.3 English-First Work

Your final course work should be in English.

You may use your first language to understand instructions when your teacher allows it. But your portfolio files, prompts, answers, reflections, and presentation should be in simple English.

Figure 3.1: Your path through the English for AI course.

In simple English: each class and self-practice task helps you build one part of your final toolkit.

3.4 Tools

Students need only a basic device with a browser. A low-end Chromebook is enough.

Teachers may provide:

- the course website
- printed handouts
- PDF or Word exports
- a safe AI tool approved by the school
- teacher-provided sample AI outputs when internet access is limited

Avoid paid accounts when possible. Save important work outside any AI tool.

3.5 If You Need Support

This course should feel safe and useful. If something is hard, you have options. Tell your teacher early — they can help.

- You can ask for a printed copy of any page.
- You can ask for more time to finish a task or save a file.
- You can write some answers instead of saying them, if your teacher allows it.
- You can say some answers instead of writing them, if your teacher allows it.
- You do not need to record your voice unless your teacher says it is allowed.
- You can use your first language to think, but please write final work in English.
- Tell your teacher if a tool, link, or activity does not work on your device.
- Never share private information to complete an activity. Ask for a safer example.

Asking for help is part of learning. You are not behind for asking.

3.6 Portfolio Folder

Create this folder on your device or in your approved school storage:

```
English AI Decision Toolkit/
```

3.7 Before Class 5 Checklist

Before Class 5, you should have these files:

```
Class 1 - My First English AI Prompt.md
Self-Practice 1 - Prompt Practice and Vocabulary Log.md
Class 2 - English Decision Matrix.md
Self-Practice 2 - Revised Prompt and Matrix.md
Class 3 - Source-Grounded Answer in English.md
Self-Practice 3 - Source Check and Paraphrase.md
Class 4 - Visual Description and 60-Second Script.md
Self-Practice 4 - Visual Speaking Practice.md
Self-Practice 5 - Presentation Draft and Checklist.md
Vocabulary Log.md
Personal AI Safety Checklist.md
```

3.8 Final Submission Checklist

Your complete **English AI Decision Toolkit** should include:

```
Class 1 - My First English AI Prompt.md
Self-Practice 1 - Prompt Practice and Vocabulary Log.md
Class 2 - English Decision Matrix.md
Self-Practice 2 - Revised Prompt and Matrix.md
Class 3 - Source-Grounded Answer in English.md
Self-Practice 3 - Source Check and Paraphrase.md
Class 4 - Visual Description and 60-Second Script.md
Self-Practice 4 - Visual Speaking Practice.md
Self-Practice 5 - Presentation Draft and Checklist.md
Class 5 - My AI Decision Assistant Prompt.md
Class 5 - Final Project - My English AI Workflow.md
Vocabulary Log.md
Sentence Frames I Can Use.md
Personal AI Safety Checklist.md
```

Open File Formats

Use open or easy-to-export formats when possible:

.md, .txt, .csv, .png, .svg, .wav, .ogg, .pdf, .docx

3.9 My Progress

Use this tracker to see where you are in the course. Check each box when you finish and save the file in your **English AI Decision Toolkit** folder.

Step	What to finish	Done?
Class 1	Class 1 - My First English AI Prompt.md	☐

Final check	I reviewed all files for private information.	[]
Final check	I saved my files outside the AI tool.	[]

3.10 Colab AI in the Labs

Some Optional Colab Labs use **Colab AI**. Colab AI is Google Colab's built-in AI helper. When you open a lab and the AI cell runs, the lab tries to use Colab AI **automatically**. You do not need to turn it on.

If Colab AI is available, you will see a short answer in the lab. Read it carefully and decide what to keep, change, or reject. The AI answer is for **review only**.

If Colab AI is not available — for example, if your account or Colab runtime does not support it — you will see a short, friendly message. The regular lab steps will still work, and you can finish your portfolio without AI.

Safety rules for every Colab AI cell:

- Use safe examples only.
- Never type private information into the lab.
- Check important AI answers with a real source.
- AI may be wrong. You decide what is true.
- You make the final decision.

Available Colab AI models can change over time. The lab will pick a working model if one is available, and continue without AI if none is available.

3.11 Class Routine

Use this routine in every class:

1. Read the task in English.
2. Highlight key words.
3. Ask: What do I need to do?
4. Use sentence frames.
5. Complete the task in English.
6. Check the answer with a partner or teacher.
7. Save the work in your toolkit.

3.12 Can-Do Goals

By the end of the course, you can say:

- I can write a simple prompt in English.
- I can compare two choices using simple English.
- I can ask AI to explain an answer more clearly.
- I can identify private information I should not share.
- I can check an answer with a source.
- I can give a short presentation about my AI workflow.

High-Stakes Warning

For health, legal, immigration, money, safety, school records, or work contracts, use AI only to organize questions or learn vocabulary. Ask a qualified person before making a final decision.

4 Class 1: AI Basics and English Prompts

Duration: 2 hours

Your Path

You are in: Class 1

Before this: Orientation

After this: Self-Practice 1

Save this: English AI Decision Toolkit/Class 1 - My First English AI Prompt.md

4.1 Start Here

You need help studying. You open an AI tool and type:

```
Help me study.
```

The answer is long, general, and not very useful. It is mostly a guess about what you need.

Now you try again with a clearer English prompt:

```
I need help making a simple English study plan.
```

```
I have an English test on Friday.
```

```
I can study 30 minutes each day.
```

```
I need help with vocabulary and speaking.
```

```
Please give me:
```

```
1. A 4-day study plan.
```

```
2. A list of 10 words to review.
```

```
3. A 5-minute speaking practice activity.
```

```
Use simple English.
```

This time the answer is clear and useful. The only thing that changed was the prompt.

4.2 Why This Matters

When you ask AI in clear English, you get better answers. You also practice English you can use every day — at school, at work, and with family. A good prompt is a skill. Clear English is a skill. Today you will start to build both.

4.3 Today You Will

By the end of this lesson, you will:

1. Learn the ZONI CLEAR prompt scaffold in simple English.
2. Compare a weak prompt with a strong prompt.
3. Write your own English AI prompt for a safe everyday task.
4. Practice a safe privacy rule: never share private information with AI.
5. Save: English AI Decision Toolkit/Class 1 - My First English AI Prompt.md.

Lesson Reference

This is the curriculum focus for today. Open this box to see the full lesson plan. You do not need to memorize it — use it as a quick guide.

Theme: AI can help when we ask clear questions in English.

AI Focus: Prompt writing.

ESL Focus: Simple requests, question words, imperatives, and polite language.

Content Objective: Students will write a clear English prompt for a simple everyday task.

Language Objective: Students will use simple English request forms:

- Help me...
- Explain...
- Compare...
- Give me...
- Ask me questions before you answer.
- Use simple English.

4.4 Beginner Explanation

AI tools answer instructions called **prompts**. A prompt is a question or an instruction you write in English. A good prompt tells the AI what you need, gives short context, and explains the format you want for the answer.

For English learners, writing prompts is also English practice. You practice giving clear instructions, asking questions, and improving sentences that are not clear. The more clear your English, the more useful the AI answer.

Privacy Rule

Do not share private information with AI. Do not type passwords, addresses, ID numbers, medical records, immigration documents, or private school/work documents into an AI tool.

4.5 Key Vocabulary

Word	Simple Meaning	Example Sentence
AI	A computer system that can create answers, text, images, or other outputs	I used AI to organize my ideas.
prompt	The instruction or question you give AI	My prompt asks for a simple email.
output	The answer from AI	The output was too long.
context	Background information	I gave context about my schedule.
revise	Improve after checking	I revised my prompt.
private	Not for everyone to see	My address is private.

4.6 Sentence Frames

```
I need help with _____.
Please explain _____ in simple English.
Give me _____.
Use a table with _____.
Ask me questions if _____.
Do not include _____.
```

4.7 Class Agenda

	Time	Activity	Purpose
	15 min	Warm-up: What can AI help with?	Sort safe and unsafe AI tasks.
	20 min	Mini-lesson: ZONI CLEAR prompt scaffold	Learn a repeatable prompt structure.
	30 min	Guided practice: weak prompt vs strong prompt	Identify task, context, limits, and output format.
	35 min	Independent practice: first English AI prompt	Write and test or review a safe prompt.
	20 min	Pair speaking	Explain the prompt and privacy choice.

4.8 Guided Practice

4.8.1 Warm-Up: What Can AI Help With?

Sort each task.

Task	Good for AI	Use Carefully	Do Not Use AI Alone
Brainstorm lunch ideas	X		
Ask for a medical diagnosis			X
Summarize a public article	X		
Upload immigration papers			X
Practice interview answers	X		

Pair speaking frames:

I think this is good for AI because _____.

I think we should be careful because _____.

I think we should not use AI for this because _____.

4.8.2 Mini-Lesson: The ZONI CLEAR Prompt Scaffold

This course uses a **ZONI CLEAR** scaffold to help you write prompts in simple English. CLEAR means **C**ontext, **L**imits, **E**xample or format, **A**sk, and **R**eview.

Letter	Meaning	Student-Friendly Question
C	Context	What is my situation?
L	Limit	What should AI avoid?
E	Example	What style or format do I want?
A	Ask	What do I want AI to do?
R	Review	What should AI check before answering?

Figure 4.1: The ZONI CLEAR prompt flow.

In simple English: a clear prompt gives AI the situation, the rules, the format, the task, and a check.

Student template:

```

I need help with: [task]

Context:
[short background]

Limits:
- Use simple English.
- Do not invent facts.
- Do not use private information.
- Ask questions if information is missing.

Output format:
[table / checklist / email / short paragraph]

Before answering:
List assumptions and missing information.
  
```

4.8.3 Weak Prompt vs Strong Prompt

Weak prompt:

Help me study.

Strong prompt:

I need help making a simple study plan.

Context:

- I have an English test on Friday.
- I can study 30 minutes each day.
- I need help with vocabulary and speaking.

Please give me:

1. A 4-day study plan.
2. A list of 10 words to review.
3. A 5-minute speaking practice activity.
4. Questions you need before improving the plan.

Use simple English.

Underline:

1. the task
2. the context
3. the limits
4. the output format

4.9 Independent Practice

Choose one safe task:

- Write a polite email.
- Plan study time.
- Prepare for a job interview.
- Understand a public announcement.
- Make a grocery list on a budget.
- Organize a weekly schedule.

Use this student file:

```
# Class 1 - My First English AI Prompt
```

```
My task:
```

```
[write task]
```

```
My prompt:
```

```
[write prompt]
```

```
AI answer summary:
```

```
[write 2-3 sentences]
```

```
Words I learned:
```

```
1.
```

```
2.
```

```
3.
```

```
What I checked:
```

```
[write one thing]
```

```
What I should not share:
```

```
[write private information I removed]
```

4.10 Pair Speaking or Presentation Task

In pairs, explain your prompt.

```
My task is _____.
```

```
I gave the AI context about _____.
```

```
I asked for _____.
```

```
I did not share _____ because it is private.
```

4.11 Reflection

Write three short sentences:

```
Today I learned that AI can _____.
```

```
One English phrase I practiced is _____.
```

```
One private detail I should not share is _____.
```

4.12 Exit Ticket

Submit or save:

1. One English prompt.
2. Three new vocabulary words.
3. One privacy rule in English.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 1 Prompt Playground** lab in Colab to build a ZONI CLEAR prompt step by step:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-01-prompt-playground.ipynb>

Use safe examples only. Do not enter private information.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. If Colab AI is not available, the regular lab steps still work, and you can finish your portfolio without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Class 1 prompt is ready when:

- ☐ The task is clear in one short sentence.
- ☐ You added useful context (your situation, what you need).
- ☐ Your English is simple and easy to read.
- ☐ No private information is in the prompt.

Required Portfolio Artifact

`English AI Decision Toolkit/Class 1 - My First English AI Prompt.md`

5 Self-Practice 1: Prompt and Vocabulary Practice

Duration: 2 hours

Your Path

You are in: Self-Practice 1

Before this: Class 1

After this: Class 2

Save this: English AI Decision Toolkit/Self-Practice 1 - Prompt Practice and Vocabulary Log.md

5.1 Start Here

In Class 1 you wrote your first English AI prompt. Today, on your own time, you will try the same task with a few small changes and see what changes in the answer. A small change in your English often makes a big change in the AI answer.

You will work in your own toolkit folder. You can use any safe everyday task. You do not need to use an AI tool to do most of this practice — your teacher can give you a sample output if you do not have AI at home.

5.2 What You Will Practice

1. Reviewing your Class 1 prompt and finding the parts that worked.
2. Writing three different versions of one prompt in simple English.
3. Comparing the AI answers (or sample outputs) and choosing the best one.
4. Learning five new English words you can use again.

5.3 What You Will Save

English AI Decision Toolkit/Self-Practice 1 - Prompt Practice and Vocabulary Log.md

Practice Reference

Open this box to see how this self-practice is structured. Read it once, then move into the parts of the practice.

Mode: Independent practice outside synchronous class.

Purpose: Practice writing clear English prompts, compare outputs, build vocabulary, and apply privacy rules.

Student Instructions: Complete this practice in your **English AI Decision Toolkit** folder. Use a safe everyday task. Do not use private information.

If you cannot use an AI tool at home, ask your teacher for a safe sample output.

5.4 Part 1: Review Your Class 1 Prompt - 15 Minutes

Open your Class 1 prompt. Highlight the words that show:

1. what you need
2. your context
3. the format you want
4. what AI should avoid

Write:

```
# Self-Practice 1 - Prompt Practice and Vocabulary Log

## Part 1: Prompt Review

My prompt asks AI to:
[write task]

My context is:
[write context]

The format I requested is:
[write format]
```

```
One thing AI should avoid is:  
[write limit]
```

5.5 Part 2: Write Three Prompt Variations - 35 Minutes

Choose one safe everyday task.

Examples:

- ask for a simple email draft
- organize a study schedule
- practice interview questions
- explain a public notice
- make a vocabulary review plan

```
## Part 2: Three Prompt Variations
```

```
Task:  
[write task]
```

```
Prompt 1 - Short:  
[write prompt]
```

```
Prompt 2 - More Context:  
[write prompt]
```

```
Prompt 3 - Clear Format:  
[write prompt]
```

5.6 Part 3: Compare the Outputs - 35 Minutes

Use AI or a teacher-provided sample output. Compare the answers in simple English.

```
## Part 3: Output Comparison
```

```
Prompt 1 was useful because _____.  
Prompt 2 was better because _____.  
Prompt 3 was clearest because _____.
```

```
The best prompt was Prompt ___ because _____.
```

One answer I should verify is _____.
One private detail I did not share is _____.

5.7 Part 4: Vocabulary Practice - 20 Minutes

Add five words to your vocabulary log.

Word	Simple Meaning	My Sentence
prompt		
output		
context		
format		
private		

5.8 Part 5: Reflection and Save - 15 Minutes

Reflection

One prompt skill I practiced is _____.
One English word I understand better is _____.
One privacy rule I will remember is _____.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 1 Prompt Playground** lab in Colab and try three small prompt variations:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-01-prompt-playground.ipynb>

Use safe examples only. Do not enter private information.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. If Colab AI is not available, the regular lab steps still work, and you can finish your self-practice without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Self-Practice 1 file is ready when:

- ☐ You saved three prompt variations.
- ☐ You added at least five new words to your vocabulary log.
- ☐ You wrote a short reflection in simple English.
- ☐ No private information appears in any prompt or answer.

5.9 Required Artifact

Save:

English AI Decision Toolkit/Self-Practice 1 - Prompt Practice and Vocabulary Log.md

5.10 Portfolio Saving Instructions

1. Save your file in your toolkit folder.
2. Check that the file name is correct.
3. Add any new words to Vocabulary Log.md.
4. Keep your prompt reusable. It should work in more than one AI tool.

Privacy Check

Before saving, remove names, addresses, phone numbers, ID numbers, passwords, and private documents.

6 Class 2: Making Better Decisions in English

Duration: 2 hours

Your Path

You are in: Class 2

Before this: Self-Practice 1

After this: Self-Practice 2

Save this: English AI Decision Toolkit/Class 2 - English Decision Matrix.md

6.1 Start Here

A friend asks you a simple question:

What is the best phone plan?

Think about it. There is no single best plan for everyone.

- A student who calls family abroad needs international minutes.
- A delivery driver needs a lot of mobile data on the road.
- A parent at home might prefer a family plan with shared data.

The “best” choice changes for each person. Before you choose anything — a phone plan, a job, a class, a bus or train — you need to know what matters most to **you**.

6.2 Why This Matters

You make decisions every day. Which job to apply for. Which class to take. How to spend your time and your money. AI can help you see your options and compare them in English. But AI does not know your life. You do. Today you will learn a simple tool to compare choices in clear English — and remember that the final decision is yours.

6.3 Today You Will

By the end of this lesson, you will:

1. Learn how to build a simple decision matrix in English.
2. Compare two real-life options using clear comparison phrases.
3. Practice English like “A is cheaper than B” and “I might choose A because...”
4. Decide why the final decision must stay with a person, not the AI.
5. Save: `English AI Decision Toolkit/Class 2 - English Decision Matrix.md`.

Lesson Reference

This is the curriculum focus for today. Open this box to see the full lesson plan. You do not need to memorize it — use it as a quick guide.

Theme: AI can help compare choices, but people make the final decision.

AI Focus: Decision matrix.

ESL Focus: Comparatives, superlatives, modals, and reasons.

Content Objective: Students will compare two or three options using a decision matrix.

Language Objective: Students will use English comparison language:

Option A is cheaper than Option B.

Option B is more convenient.

I should choose...

I might choose...

I chose this because...

The risk is...

6.4 Beginner Explanation

A **decision matrix** is a simple table for comparing choices. You pick the things that matter to you (criteria), give each option a score, and write short reasons in English. AI can help you find criteria you forgot or risks you did not see. AI should not choose for you — you make the final decision.

Method Note

This activity adapts the decision matrix, also called a Pugh matrix, decision grid, or selection matrix. A decision matrix helps compare options against criteria and can use weights when some criteria matter more (American Society for Quality n.d.).

! Human Decision Rule

AI can help you compare. You make the final decision.

Figure 6.1: AI can help compare, but the student makes the decision.

In simple English: AI can give ideas, but you check the facts and make the final choice.

6.5 Key Vocabulary

Word	Simple Meaning	Example Sentence
option	A choice	Bus and train are two options.
compare	Look at two or more things	I compare the cost and time.
criteria	The things that matter	My criteria are cost and safety.
risk	A possible problem	The risk is arriving late.
evidence	Information that supports an answer	The price is evidence.
decision	A choice after thinking	My decision is to take the bus.

6.6 Sentence Frames

For me, the most important criterion is _____.
Option A is cheaper than Option B.
Option B is more convenient than Option A.
I might choose _____ because _____.
Before I decide, I need to check _____.
AI helped me compare, but I chose _____.

6.7 Class Agenda

	Time	Activity	Purpose
	15 min	Warm-up: What does “best” mean?	Show that “best” depends on the person.
	20 min	Mini-lesson: decision matrix	Learn criteria, scores, and evidence.
	25 min	Guided practice: commute options	Compare bus and train.
	40 min	Independent practice: my decision matrix	Build a matrix for a safe decision.
	20 min	Pair speaking	Explain the decision and what to verify.

6.8 Guided Practice

6.8.1 Warm-Up: What Does “Best” Mean?

Question:

What is the best phone plan?

Possible criteria:

- cost
- data
- coverage
- contract
- family plan
- international calls

Speaking frame:

For me, the most important criterion is _____ because _____.

6.8.2 Mini-Lesson: Decision Matrix

Basic structure:

```
Decision:
[What am I choosing?]

Options:
A.
B.
C.

Criteria:
1. Cost
2. Time
3. Convenience
4. Quality
5. Risk
```

Scoring:

```
1 = poor
2 = okay
3 = good
4 = very good
5 = excellent
```

6.8.3 Compare Two Commute Options

Criteria	Importance 1-5	Bus	Train	Notes
Cost	5	5	3	Bus is cheaper.
Time	4	2	5	Train is faster.
Convenience	3	3	4	Train has fewer stops.
Risk	4	3	4	Bus may be late.

Write three comparison sentences:

```
The bus is cheaper than the train.
The train is faster than the bus.
I might choose the train because time is important.
```

6.9 Independent Practice

Use this student file:

```
# Class 2 - English Decision Matrix
```

Decision:

[Write the decision]

Options:

A.

B.

C.

Criteria	Importance 1-5	Option A	Option B	Option C	Evidence / Notes
Cost					
Time					
Convenience					
Quality					
Risk					

My decision for now:

[choice]

My reason:

I chose _____ because _____.

What I need to check:

1.

2.

3.

Optional AI support prompt:

Help me improve this decision matrix.

Do not make the final decision for me.

Use simple English.

Tell me:

1. What criteria I forgot.

2. What assumptions I made.

3. What information I should verify before choosing.

6.10 Pair Speaking or Presentation Task

Explain your matrix to a partner.

I am choosing between _____ and _____.
The most important criterion is _____.
Option ___ is better for _____.
Before I decide, I need to check _____.

6.11 Reflection

One criterion I used is _____.
One risk I found is _____.
One thing I need to verify is _____.

6.12 Exit Ticket

Submit or save:

1. One decision matrix.
2. Three comparison sentences.
3. One sentence explaining why AI should not make the final decision.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 2 Decision Matrix Lab** in Colab to build, score, and compare three options:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-02-decision-matrix-lab.ipynb>

Use safe examples only. Do not enter private information.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. If Colab AI is not available, the regular lab steps still work, and you can finish your portfolio without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Class 2 decision matrix is ready when:

- ☐ You list two or three clear options.
- ☐ Your criteria are useful for your decision.
- ☐ You use comparison language (“A is cheaper than B”).
- ☐ The final decision is yours, not the AI’s, with a short reason in English.

Save your work here:

`English AI Decision Toolkit/Class 2 - English Decision Matrix.md`

7 Self-Practice 2: Prompt Revision and Decision Practice

Duration: 2 hours

Your Path

You are in: Self-Practice 2

Before this: Class 2

After this: Class 3

Save this: English AI Decision Toolkit/Self-Practice 2 - Revised Prompt and Matrix.md

7.1 Start Here

In Class 2 you built a decision matrix in English. Now you will practice two skills together: writing a better English prompt and using a matrix to think about a small everyday choice.

Pick a small, safe choice — like studying today or tomorrow, taking the bus or walking, or cooking at home or buying food. Small choices are perfect for practice.

7.2 What You Will Practice

1. Improving your Class 1 prompt with the ZONI CLEAR scaffold.
2. Building a short decision matrix for a real, safe choice.
3. Using English comparison phrases and reason words (“because”, “before I decide”).
4. Asking AI (or a partner) to review your matrix without making the decision for you.

7.3 What You Will Save

English AI Decision Toolkit/Self-Practice 2 - Revised Prompt and Matrix.md

Practice Reference

Open this box to see how this self-practice is structured. Read it once, then move into the parts.

Mode: Independent practice outside synchronous class.

Purpose: Strengthen prompt writing, comparison language, decision matrices, and portfolio organization.

Student Instructions: Complete this practice in your **English AI Decision Toolkit** folder. Use safe, non-private examples.

7.4 Part 1: Revise Your Class 1 Prompt - 30 Minutes

Open your Class 1 prompt. Improve it using the ZONI CLEAR scaffold.

```
# Self-Practice 2 - Revised Prompt and Matrix
```

```
## Part 1: Revised English Prompt
```

```
My original prompt was:
```

```
[paste original prompt]
```

```
My revised prompt is:
```

```
[paste improved prompt]
```

```
I improved it by adding:
```

```
- Context: _____
```

```
- Limits: _____
```

```
- Output format: _____
```

```
- Review instruction: _____
```

7.5 Part 2: Practice a Small Decision Matrix - 50 Minutes

Choose a simple decision:

- study today or tomorrow
- cook at home or buy food
- take the bus or walk
- review vocabulary or practice speaking

Part 2: Practice Decision Matrix

Decision:

[write decision]

Options:

A.

B.

Criteria	Option A	Option B	Notes
Cost			
Time			
Convenience			
Risk			

My choice for now:

[choice]

I chose this because _____.

Before I decide, I need to check _____.

7.6 Part 3: AI Review Prompt - 20 Minutes

Ask AI, a partner, or a teacher-provided sample response to review your matrix.

Part 3: AI Review Prompt

Prompt:

Help me review this decision matrix.

Do not make the final decision for me.

Use simple English.

Tell me:

1. One criterion I should add.
2. One assumption I should check.
3. One risk I should think about.

One useful suggestion was _____.

One suggestion I will not use is _____ because _____.

7.7 Part 4: Vocabulary Practice - 10 Minutes

Add five words to your vocabulary log.

Word	Simple Meaning	My Sentence
prompt		
compare		
option		
criteria		
risk		

7.8 Part 5: Reflection - 10 Minutes

One thing I can do better in English now is _____.

One thing I still need to practice is _____.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 2 Decision Matrix Lab** in Colab to revise your matrix at home:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-02-decision-matrix-lab.ipynb>

Use safe examples only. Do not enter private information.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. If Colab AI is not available, the regular lab steps still work, and you can finish your self-practice without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Self-Practice 2 file is ready when:

- ☐ Your revised prompt is clearer than your Class 1 prompt (more context, limits, or format).
- ☐ Your decision matrix shows useful criteria and short notes.
- ☐ You explain one AI suggestion you used AND one you did not use, with a short reason.
- ☐ The final decision is yours, written in simple English.

7.9 Required Artifact

Save:

```
English AI Decision Toolkit/Self-Practice 2 - Revised Prompt and Matrix.md
```

7.10 Portfolio Saving Instructions

1. Save the revised prompt and matrix in one file.
2. Add new words to `Vocabulary Log.md`.
3. Keep the final decision in your own words.
4. Save in `.md`, `.txt`, `.docx`, or `.pdf` if your teacher asks for another format.

! Decision Rule

AI can suggest criteria. AI can point out risks. You choose what matters most.

8 Class 3: Source-Grounded Reading

Duration: 2 hours

Your Path

You are in: Class 3

Before this: Self-Practice 2

After this: Self-Practice 3

Save this: English AI Decision Toolkit/Class 3 - Source-Grounded Answer in English.md

8.1 Start Here

A friend asks you: “Can I return this item to the store?”

You see two answers.

Answer A:

`Yes, you can return it within 30 days.`

Answer B:

`According to the store's return policy, items can be returned within 30 days with a receipt.`

Which answer do you trust more?

Answer B shows where the information came from. You can check it. Answer A might be true — but it might be wrong, and you have no way to know. Trusting an answer without a source can cost you time, money, or even a job.

8.2 Why This Matters

AI sometimes invents answers that sound correct but are not true. We call this a **hallucination**. If you ask AI about school rules, store policies, public notices, work guides, or health information, a wrong answer can cause real problems. Today you will learn how to give AI a short source text and ask for answers only from that source. This is a safer way to use AI, and it is excellent English reading practice.

8.3 Today You Will

By the end of this lesson, you will:

1. Learn how to write a source-grounded prompt.
2. Quote a short public text and paraphrase it in your own simple English.
3. Practice saying “I cannot answer from the provided source” when the answer is not there.
4. Spot a hallucination by checking the source.
5. Save: `English AI Decision Toolkit/Class 3 - Source-Grounded Answer in English.md`.

Lesson Reference

This is the curriculum focus for today. Open this box to see the full lesson plan. You do not need to memorize it — use it as a quick guide.

Theme: AI answers must be checked with sources.

AI Focus: Source-grounded answers and hallucination awareness.

ESL Focus: Reading for details, paraphrasing, evidence language, and citations.

Content Objective: Students will answer a question using only a provided source text.

Language Objective: Students will use evidence phrases:

```
The source says...
According to the text...
This means...
The answer is not in the source.
I need to check...
```

8.4 Beginner Explanation

Sometimes AI gives an answer that sounds correct but is not really supported. We call this a **hallucination**. The words look fine, but the facts may be invented.

A safer way to use AI for reading: give it a short source text and ask it to answer only from that text. If the answer is not in the text, AI should say so — and so should you.

In simple English:

Do not guess. Use the source.

Research Note

This classroom routine is informed by work on AI factuality, hallucination, and retrieval/source-grounded generation. In this class, we practice a simple version: use the provided source, quote short evidence, and do not guess when the source does not answer (Maynez et al. 2020; Lewis et al. 2020).

8.5 Key Vocabulary

Word	Simple Meaning	Example Sentence
source	The original text or information	The source is a school policy.
citation	A note that shows where information came from	I need a citation for this answer.
evidence	Words from the source that support an answer	The sentence is evidence.
quote	Exact words from a source	I used a short quote.
paraphrase	Same idea in your own words	I paraphrased the rule.
hallucination	An AI answer that may be wrong or unsupported	The AI hallucinated a date.

8.6 Sentence Frames

My question was _____.
The source says _____.
According to the text, _____.
This means _____.
The source does not say _____.
I cannot answer from the provided source.

8.7 Class Agenda

	Time	Activity	Purpose
	15 min	Warm-up: Which answer is better?	Notice evidence in answers.
	25 min	Mini-lesson: source-grounded prompts	Learn how to limit AI to a source.
	35 min	Guided practice: public rule or policy	Read, quote, and paraphrase.
	20 min	Hallucination test	Practice unsupported-question response.
	15 min	Pair speaking	Explain evidence in English.
	10 min	Reflection	Save learning and next step.

8.8 Guided Practice

8.8.1 Warm-Up: Which Answer Is Better?

Answer A:

You can return the item after 30 days.

Answer B:

According to the return policy, items can be returned within 30 days with a receipt.

Discuss:

Which answer is easier to trust?
What evidence do you see?
What is still missing?

8.8.2 Mini-Lesson: Source-Grounded Prompt

Use this template:

```
Use ONLY the source text below.  
If the answer is not in the source, say:  
"I cannot answer from the provided source."
```

```
Question:  
[student question]
```

```
Source text:  
[paste short source section]
```

```
Answer format:  
1. Short answer  
2. Evidence from the source  
3. What is unclear  
4. What I should check next
```

Figure 8.1: A safe routine for source-grounded answers.

In simple English: use the source. If the source does not answer, say so.

i Source-Checking Note

For important answers, stop, check the source, look for better coverage, and trace the claim back to evidence (Caulfield 2019).

8.8.3 Public Rule or Policy

Use a short public text selected by the teacher. The folder `assets/sample-documents/` has safe practice sources:

- `assets/sample-documents/bus-route-notice.md`
- `assets/sample-documents/community-event-announcement.md`
- `assets/sample-documents/library-borrowing-rules.md`
- `assets/sample-documents/product-return-policy-sample.md`
- `assets/sample-documents/recycling-pickup-guide.md`
- `assets/sample-documents/study-room-rules.md`

Student worksheet:

```
# Class 3 - Source-Grounded Answer in English
```

Question:

[Write the question]

Key words in the question:

- 1.
- 2.
- 3.

Short answer:

[Write answer]

Evidence:

The source says: "[short quote]"

Paraphrase:

This means _____.

What is unclear:

[Write uncertainty]

What I should check next:

[Write next step]

8.9 Independent Practice

Ask one supported question and one unsupported question about the same source.

Supported question example:

How many days can I borrow a library book?

Unsupported question example:

What is the library manager's personal phone number?

Correct unsupported answer:

I cannot answer from the provided source.

Label each answer:

Supported / Not supported / Not in the source

8.10 Pair Speaking or Presentation Task

Explain your source answer to a partner.

My question was _____.
The source says _____.
This means _____.
The source does not say _____.
I need to check _____.

8.11 Reflection

Today I learned:
[write one sentence]

One source phrase I can use:
[write phrase]

One thing AI should not do:
[write sentence]

8.12 Exit Ticket

Submit or save:

1. One source-grounded answer.
2. One short quote.
3. One paraphrase.
4. One example of “not in the source.”

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 3 Source-Grounded Lab** in Colab to practice answering safely from a short source:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-03-source-grounded-lab.ipynb>

Use the built-in safe sample sources only. Do not paste private documents.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. Colab AI is asked to answer only from the source you load; if the source does not answer, AI must say *“I cannot answer from the provided source.”* If Colab AI is not available, the regular lab steps still work, and you can finish your portfolio without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Class 3 source-grounded answer is ready when:

- ☐ Your answer uses information from the source, not guesses.
- ☐ You include a short quote from the source.
- ☐ Your paraphrase is in your own simple English.
- ☐ If the source did not answer, you wrote “I cannot answer from the provided source.”

Required Portfolio Artifact

Save your work here:

`English AI Decision Toolkit/Class 3 - Source-Grounded Answer in English.md`

9 Self-Practice 3: Source Check and Paraphrase

Duration: 2 hours

Your Path

You are in: Self-Practice 3

Before this: Class 3

After this: Class 4

Save this: English AI Decision Toolkit/Self-Practice 3 - Source Check and Paraphrase.md

9.1 Start Here

In Class 3 you learned that a safe AI answer should come from a source you can check. Today you will practice this on your own with a short, safe, public text.

Choose a short public text from the **assets/sample-documents/** folder, or use a short text your teacher gave you. Do not use private documents, school records, medical papers, or any document with names, addresses, or ID numbers.

9.2 What You Will Practice

1. Reading a short public source and finding key words.
2. Asking AI a question that the source DOES answer (supported).
3. Asking AI a question that the source does NOT answer (unsupported).
4. Quoting a short sentence and paraphrasing it in your own simple English.

9.3 What You Will Save

English AI Decision Toolkit/Self-Practice 3 - Source Check and Paraphrase.md

Practice Reference

Open this box to see how this self-practice is structured. Read it once, then move into the parts.

Mode: Independent practice outside synchronous class.

Purpose: Practice reading a public source, checking AI answers, paraphrasing, and identifying unsupported information.

Student Instructions: Use a short public source chosen by the teacher or a safe public text from `assets/sample-documents/`, such as:

- `bus-route-notice.md`
- `community-event-announcement.md`
- `library-borrowing-rules.md`
- `product-return-policy-sample.md`
- `recycling-pickup-guide.md`
- `study-room-rules.md`

Do not use private documents.

9.4 Part 1: Choose and Read a Source - 20 Minutes

```
# Self-Practice 3 - Source Check and Paraphrase
```

```
## Part 1: Source Information
```

```
Source title:
```

```
[write title]
```

```
Source type:
```

```
[library rule / school notice / public announcement / other]
```

```
Three key words:
```

- 1.
- 2.
- 3.

9.5 Part 2: Ask a Source-Grounded Question - 25 Minutes

```
## Part 2: Source-Grounded Question
```

```
My question:  
[write question]
```

```
Prompt I used:  
Use only the source text. If the answer is not in the source, say:  
"I cannot answer from the provided source."
```

```
Short answer:  
[write answer]
```

9.6 Part 3: Evidence and Paraphrase - 30 Minutes

```
## Part 3: Evidence and Paraphrase
```

```
Evidence:  
The source says: "[short quote]"
```

```
Paraphrase:  
This means _____.
```

```
Important detail:  
The most important detail is _____.
```

9.7 Part 4: Unsupported Question Test - 20 Minutes

Ask one question that the source does not answer.

```
## Part 4: Unsupported Question Test
```

```
Question not answered by the source:  
[write question]
```

```
Correct response:
```

I cannot answer from the provided source.

Why this is safer:

It is safer because _____.

9.8 Part 5: Vocabulary Practice - 10 Minutes

Add five words to your vocabulary log.

Word	Simple Meaning	My Sentence
source		
evidence		
quote		
paraphrase		
unsupported		

9.9 Part 6: Reflection and Save - 15 Minutes

Reflection

One reading skill I practiced is _____.

One source phrase I can use is _____.

One thing I should verify is _____.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 3 Source-Grounded Lab** in Colab to practice with safe sample sources at home:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-03-source-grounded-lab.ipynb>

Use the built-in safe sample sources only. Do not paste private documents.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. Colab AI is asked to answer only from the source you load. If Colab AI is not available, the regular lab steps still work, and you can finish your self-practice without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Self-Practice 3 file is ready when:

- ☐ Your source-grounded answer is saved with the source title or link.
- ☐ You included a short quote from the source.
- ☐ Your paraphrase uses your own simple English.
- ☐ For the unsupported question, you wrote “I cannot answer from the provided source.”
- ☐ You used a safe public source, not a private document.

9.10 Required Artifact

Save:

```
English AI Decision Toolkit/Self-Practice 3 - Source Check and Paraphrase.md
```

9.11 Portfolio Saving Instructions

1. Save your source check file in your toolkit folder.
2. Keep the source title or link with your work.
3. Add new words to `Vocabulary Log.md`.
4. Do not save private source documents in the toolkit.

Unsupported Question Rule

If the source does not answer the question, write: `I cannot answer from the provided source.`

10 Class 4: Visual, Speaking, and Audio Communication

Duration: 2 hours

Your Path

You are in: Class 4

Before this: Self-Practice 3

After this: Self-Practice 4

Save this: English AI Decision Toolkit/Class 4 - Visual Description and 60-Second Script.md

10.1 Start Here

You see a small flyer on a wall at school:

Meeting Thursday Room 3

You ask yourself: Which Thursday? What time? What is the meeting about? Should I bring something?

Now look at a clearer version:

English Conversation Club
Thursday, June 5
4:00 to 5:00 PM
Library, Room 3
Free and open to all students.
Please bring one question to share.

Now you know if it is for you. The same idea — a small flyer — but the second version uses clear English words and clear visual details. People can read it, understand it, and decide quickly.

Speaking is the same. A short, clear message helps people listen and respond.

10.2 Why This Matters

You will share messages, images, and short spoken English in your daily life — at school, at work, with family, and in your community. Clear visuals and clear speaking help people understand and act. They also help you feel more confident in English. Today you will practice both, and learn safe rules for using images and voice.

10.3 Today You Will

By the end of this lesson, you will:

1. Describe a visual in simple English.
2. Learn safe image and voice rules: open licenses, consent, and no private faces or voices.
3. Write a 60-second English speaking script with a greeting, purpose, request, and thank-you.
4. Read your script aloud and give a partner kind, helpful feedback.
5. Save: `English AI Decision Toolkit/Class 4 - Visual Description and 60-Second Script.md`.

Lesson Reference

This is the curriculum focus for today. Open this box to see the full lesson plan. You do not need to memorize it — use it as a quick guide.

Theme: AI and open tools can help students communicate clearly in English using visuals and speech.

AI Focus: Visual prompts, open media, speaking scripts, and audio awareness.

ESL Focus: Descriptive language, captions, polite requests, pronunciation, and fluency.

Content Objective: Students will create a visual communication plan and write a 60-second English speaking script.

Language Objective: Students will describe visuals and deliver practical spoken English using clear sentence frames.

The image shows...

The purpose is...

I am calling about...

Could you please...

Thank you for your time.

10.4 Beginner Explanation

A **visual** is a picture, flyer, or simple diagram. A clear visual helps people understand your message quickly. A **script** is the words you prepare before you speak. A short script helps you speak more clearly and stay calm.

AI can help you check or improve a visual description or a speaking script. You still need to check that the message is true, safe, respectful, and uses only images and voices you have permission to use.

10.5 Key Vocabulary

Word	Simple Meaning	Example Sentence
image	A picture	The image shows a classroom.
license	Permission to use something	The image has an open license.
attribution	Giving credit to the creator	I wrote an attribution.
caption	Short text near an image	The caption explains the picture.
script	Written words prepared before speaking	I wrote a script for my call.
pronunciation	How words sound	I practiced pronunciation.
consent	Permission	I need consent to use a voice recording.
feedback	Advice to improve	My partner gave feedback.

10.6 Sentence Frames

The image shows _____.
There is _____.
There are _____.
The purpose is _____.
Hello, my name is _____.
I would like to _____.
Could you please _____?
Thank you for your help.

10.7 Class Agenda

	Time	Activity	Purpose
	15 min	Warm-up: clear or confusing communication?	Identify missing details.
	20 min	Mini-lesson: safe visuals, open licenses, and consent	Learn image and audio safety.
	25 min	Guided practice A: visual description	Describe a visual in simple English.
	20 min	Guided practice B: improve a speaking script	Build polite spoken English.
	30 min	Independent practice: visual plan and script	Create a portfolio artifact.
	10 min	Pair feedback	Practice speaking and improve clarity.

10.8 Guided Practice

10.8.1 Warm-Up: Clear or Confusing Communication?

Look at a short message and a simple image or flyer.

Answer:

```
What is clear?  
What is confusing?  
What is missing?
```

Speaking frames:

```
The message is clear because _____.  
The image is confusing because _____.  
One missing detail is _____.
```

10.8.2 Mini-Lesson: Safe Visuals, Open Licenses, and Consent

Students learn:

- Do not copy random images without permission.

- Do not use another person's face or voice without permission.
- Do not create misleading images.
- Use open-license media when possible.
- Course images provided in this book are ZONI® assets unless otherwise noted.
- Save images in open formats like `.svg` or `.png`.
- Record only your own voice if recording is allowed.
- Do not imitate or clone another real person's voice.

Figure 10.1: A safe process for visual speaking practice.

In simple English: first check that the visual is safe to use, then describe it and practice your script.

i Attribution Note

For open-license images, give credit using TASL: Title, Author, Source, License. Also name changes you made, such as cropped, resized, translated, or edited (Creative Commons n.d.).

10.8.3 Guided Practice A: Write a Visual Description

Visual topic:

[topic]

Purpose:

This image helps people understand _____.

Description:

The image shows _____.

There is/are _____.

The background is _____.

The text says _____.

Source:

[ZONI-provided course image / self-created / teacher-provided / open-license image]

Creator:
[name if available]

License:
[license if available]

Changes made:
[describe changes]

Attribution note:
[short credit line]

File format:
[.svg / .png / .pdf]

10.8.4 Guided Practice B: Improve a Speaking Script

Original:

I need job. Help me.

Improved:

Hello, my name is Carlos. I am interested in the cashier position.
I have experience helping customers and handling payments.
Could you please tell me how to apply?
Thank you for your time.

Identify:

1. greeting
2. purpose
3. details
4. request
5. closing

10.9 Independent Practice

Choose one practical communication task:

- flyer for an English study group
- visual about AI privacy
- short interview answer
- voicemail script
- simple presentation about a decision
- community announcement

Student file:

```
# Class 4 - Visual Description and 60-Second Script

## Part 1: Visual Description

Visual topic:
[topic]

Purpose:
This visual helps people understand _____.

Description:
The image shows _____.
There is/are _____.
The text says _____.

Visual attribution:
- Title:
- Creator:
- Source:
- License or permission:
- Changes made:
- Attribution note:

## Part 2: 60-Second Speaking Script

Purpose:
[Why am I speaking?]

Audience:
[Who will listen?]

Script:
[100-150 words]
```

Important details:

- Date/time:
- Name:
- Request:
- Deadline:

Pronunciation focus:

[final consonants / stress / pausing / intonation]

Privacy check:

[What should I remove before sharing?]

Optional AI support prompt:

Help me improve this English speaking script.

Keep my meaning.

Use simple, polite English.

Do not add private information.

Give me:

1. A revised version.
2. Three pronunciation tips.
3. Two words I should practice.

10.10 Pair Speaking or Presentation Task

Read your script to a partner. Your partner gives feedback:

One thing that was clear:

One word to practice:

One sentence that could be shorter:

One missing detail:

One privacy concern:

10.11 Reflection

One visual detail I can describe is _____.

One word I need to pronounce clearly is _____.

One consent rule I will remember is _____.

10.12 Exit Ticket

Submit or save:

1. One visual description or visual plan.
2. One attribution or source note.
3. One 60-second English script.
4. One pronunciation goal.
5. One consent rule for visual/audio tools.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 4 Visual Script Lab** in Colab to write your visual description and a 100-150 word speaking script:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-04-visual-script-lab.ipynb>

Use safe visual topics only. Do not upload images, photos, or audio.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. Colab AI can suggest a simpler version of your script; it must not generate images, describe real people, or add facts. If Colab AI is not available, the regular lab steps still work, and you can finish your portfolio without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Class 4 visual and script are ready when:

- ☐ Your visual description is clear and in simple English.
- ☐ Your script has a greeting, a purpose, a polite request, and a thank-you.
- ☐ You used a safe image (ZONI-provided, open license, teacher-provided, or self-created).
- ☐ You used only your own voice — no copying or imitating real people.
- ☐ No private information appears in the visual or script.

Required Portfolio Artifact

Save your work here:

`English AI Decision Toolkit/Class 4 - Visual Description and 60-Second Script.md`

11 Self-Practice 4: Visual and Speaking Practice

Duration: 2 hours

Your Path

You are in: Self-Practice 4

Before this: Class 4

After this: Self-Practice 5

Save this: English AI Decision Toolkit/Self-Practice 4 - Visual Speaking Practice.md

11.1 Start Here

In Class 4 you described a visual and wrote a 60-second English script. Speaking gets easier the more you practice. Today you will improve both pieces in a quiet, safe place — at home, in the library, or anywhere you feel comfortable speaking aloud.

You do not need fancy equipment. You only need your visual plan, your script, and a few minutes to read your script out loud a few times.

11.2 What You Will Practice

1. Reviewing and improving your Class 4 visual description.
2. Revising your 60-second speaking script to make it clearer.
3. Reading the script aloud and timing yourself.
4. Checking that you used safe images and only your own voice.

11.3 What You Will Save

English AI Decision Toolkit/Self-Practice 4 - Visual Speaking Practice.md

i Practice Reference

Open this box to see how this self-practice is structured. Read it once, then move into the parts.

Mode: Independent practice outside synchronous class.

Purpose: Revise your visual communication plan, improve a speaking script, and practice safe visual/audio habits.

Student Instructions: Complete this practice in your **English AI Decision Toolkit** folder. Use a ZONI-provided course image, open-license media, teacher-provided image, or your own simple visual.

11.4 Part 1: Review Your Visual Plan - 15 Minutes

Open your Class 4 visual description and script.

```
# Self-Practice 4 - Visual Speaking Practice
```

```
## Part 1: Visual Plan Review
```

```
My visual is for:
```

```
[write purpose]
```

```
The audience is:
```

```
[write audience]
```

```
The image/source I can use safely is:
```

```
[ZONI-provided course image / self-created / teacher-provided / open-license image]
```

```
Visual attribution:
```

```
- Title:
```

```
- Creator:
```

```
- Source:
```

```
- License or permission:
```

```
- Changes made:
```

```
- Attribution note:
```

i Attribution Note

License. Also name changes you made, such as cropped, resized, translated, or edited (Creative Commons n.d.).

11.5 Part 2: Improve the Visual Description - 25 Minutes

Part 2: Improved Visual Description

The image shows _____.
There is _____.
There are _____.
The purpose of the image is _____.
One detail I should remove or change is _____.

11.6 Part 3: Revise the 60-Second Script - 30 Minutes

Part 3: Revised Speaking Script

Hello, my name is _____.
I want to explain _____.
The visual shows _____.
This is important because _____.
One thing to remember is _____.
Please _____.
Thank you.

11.7 Part 4: Pronunciation and Timing Practice - 15 Minutes

Read your script aloud three times.

Part 4: Pronunciation Practice

My script time was:
Attempt 1: ___ seconds
Attempt 2: ___ seconds
Attempt 3: ___ seconds

One word I practiced is _____.
One sentence I can say more clearly is _____.

11.8 Part 5: Consent and Safety Check - 15 Minutes

Part 5: Consent and Safety Check

- [] I did not use private photos.
- [] I did not record another person without permission.
- [] I checked the image license or made the image myself.
- [] I wrote the image title, creator, source, permission, and changes made.
- [] I did not imitate another real person's voice.

One safety rule I followed is _____.

11.9 Part 6: Vocabulary Practice and Reflection - 20 Minutes

Add five words to your vocabulary log.

Word	Simple Meaning	My Sentence
visual		
audience		
timing		
consent		
attribution		

11.10 Reflection

One speaking skill I practiced is _____.
One visual safety rule I followed is _____.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 4 Visual Script Lab** in Colab to revise your visual description and 60-second speaking script at home:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-04-visual-script-lab.ipynb>

Use safe visual topics only. Do not upload images, photos, or audio.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. Colab AI can suggest a simpler version of your script. If Colab AI is not available, the regular lab steps still work, and you can finish your self-practice without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Self-Practice 4 file is ready when:

- ☐ Your visual description and 60-second script are revised and saved.
- ☐ You completed the consent and safety check (safe image, your own voice).
- ☐ You wrote down at least one word you practiced and one sentence you can say more clearly.
- ☐ You only recorded audio if your teacher said it is allowed; otherwise reading aloud is enough.

11.11 Required Artifact

Save:

English AI Decision Toolkit/Self-Practice 4 - Visual Speaking Practice.md

11.12 Portfolio Saving Instructions

1. Save your revised visual description and script.
2. Save only safe image notes or links.
3. Add new words to **Vocabulary Log.md**.
4. Keep any audio optional unless your teacher requires it and school rules allow it.

 Consent Rule

Use your own voice only. Do not record, copy, or imitate another person without permission.

12 Self-Practice 5: Prepare for Class 5 Portfolio Presentation

Duration: 2 hours

Your Path

You are in: Self-Practice 5 (preparation for Class 5)

Before this: Self-Practice 4

After this: Class 5

Save this: English AI Decision Toolkit/Self-Practice 5 - Presentation Draft and Checklist.md

Why Self-Practice 5 Comes Before Class 5

This is on purpose. You will use the work from Self-Practice 5 to be ready for Class 5. In Class 5 you will combine your toolkit and present it. This self-practice helps you arrive at Class 5 with a draft and a complete portfolio folder.

12.1 Start Here

You are almost at Class 5 — the final class. Today is the time to bring all your work together. Open your toolkit folder and look at how far you have come. Each file is something you wrote and improved with your own English.

Today you will check that your portfolio is complete, choose your final project task, and write a first draft of your English presentation. You will leave this practice ready for Class 5.

12.2 What You Will Practice

1. Checking your toolkit folder against the Before Class 5 checklist.
2. Choosing one real, safe task for your final project.
3. Writing the first draft of a short English presentation.
4. Reading your draft aloud and finding one word to practice.

12.3 What You Will Save

English AI Decision Toolkit/Self-Practice 5 - Presentation Draft and Checklist.md

Practice Reference

Open this box to see how this self-practice is structured. Read it once, then move into the parts.

Mode: Independent practice outside synchronous class.

Purpose: Organize your portfolio and prepare for the final English presentation.

Student Instructions: Complete this practice in your **English AI Decision Toolkit** folder. Bring the completed checklist to Class 5.

12.4 Part 1: Portfolio Checklist - 20 Minutes

Check that you have these files before Class 5:

```
English AI Decision Toolkit/  
Class 1 - My First English AI Prompt.md  
Self-Practice 1 - Prompt Practice and Vocabulary Log.md  
Class 2 - English Decision Matrix.md  
Self-Practice 2 - Revised Prompt and Matrix.md  
Class 3 - Source-Grounded Answer in English.md  
Self-Practice 3 - Source Check and Paraphrase.md  
Class 4 - Visual Description and 60-Second Script.md  
Self-Practice 4 - Visual Speaking Practice.md  
Vocabulary Log.md  
Personal AI Safety Checklist.md
```

Complete this checklist:

```
# Self-Practice 5 - Presentation Draft and Checklist  
  
## Before Class 5 Checklist  
  
- [ ] I have my Class 1 prompt.  
- [ ] I completed Self-Practice 1.  
- [ ] I have my Class 2 decision matrix.  
- [ ] I completed Self-Practice 2.  
- [ ] I have my Class 3 source-grounded answer.
```

- [] I completed Self-Practice 3.
- [] I have my Class 4 visual description and script.
- [] I completed Self-Practice 4.
- [] I completed Self-Practice 5.
- [] I updated my vocabulary log.
- [] I drafted or updated my personal AI safety checklist.

12.5 Part 2: Choose a Final Project Task - 15 Minutes

Choose one real but safe task:

- choose a study plan
- prepare for a job interview
- compare transportation options
- plan a weekly budget
- write a polite request for help
- summarize a public rule or announcement
- create a simple English learning plan

Final Project Choice

My final project task is:

[write task]

This task is safe for AI because:

[write reason]

Private information I will not share:

[write list]

12.6 Part 3: Final Safety Checklist - 20 Minutes

Final Safety Checklist

- [] My task is safe for AI practice.
- [] I removed private information.
- [] I know what I need to verify.
- [] I can explain my decision in English.
- [] I know that I make the final decision.

12.7 Part 4: Draft Your Presentation - 35 Minutes

Use this frame:

```
Hello, my name is _____.
My project is about _____.
First, I used AI to _____.
Next, I checked _____.
Then, I changed _____.
I learned the words _____, _____, and _____.
I will use this workflow when _____.
I need to be careful because _____.
Thank you.
```

Write your draft:

```
## Presentation Draft
```

```
Hello, my name is _____.
My project is about _____.
First, I used AI to _____.
Next, I checked _____.
Then, I changed _____.
I learned the words _____, _____, and _____.
I will use this workflow when _____.
I need to be careful because _____.
Thank you.
```

12.8 Part 5: Vocabulary Practice - 10 Minutes

Add five words to your vocabulary log.

Word	Simple Meaning	My Sentence
portfolio		
presentation		
checklist		
draft		
practice		

12.9 Part 6: Practice and Reflect - 20 Minutes

Read your presentation aloud twice.

Reflection

One sentence I can say clearly is _____.

One word I need to practice is _____.

One question I want to ask the teacher is _____.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 5 Toolkit Builder** lab in Colab to check your portfolio status and write your final reflection:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-05-toolkit-builder.ipynb>

Use safe examples only. Do not enter private information.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. If Colab AI is not available, the regular lab steps still work, and you can finish your self-practice without AI.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your Self-Practice 5 file is ready when:

- ☐ The Before Class 5 checklist is fully checked.
- ☐ You chose a final project task that is real and safe.
- ☐ Your presentation draft uses simple English and process words (first, next, then, finally).
- ☐ You practiced reading it aloud at least twice and noted one word to practice.
- ☐ You are ready to bring this draft to Class 5.

12.10 Required Artifact

Save:

12.11 Portfolio Saving Instructions

1. Save the checklist and presentation draft.
2. Check that all previous files are in your toolkit folder.
3. Bring your final project task to Class 5.
4. Keep your final task safe and non-private.

12.12 Final Submission Checklist

In Class 5, your complete toolkit should include these files:

Class 1 - My First English AI Prompt.md
Self-Practice 1 - Prompt Practice and Vocabulary Log.md
Class 2 - English Decision Matrix.md
Self-Practice 2 - Revised Prompt and Matrix.md
Class 3 - Source-Grounded Answer in English.md
Self-Practice 3 - Source Check and Paraphrase.md
Class 4 - Visual Description and 60-Second Script.md
Self-Practice 4 - Visual Speaking Practice.md
Self-Practice 5 - Presentation Draft and Checklist.md
Class 5 - My AI Decision Assistant Prompt.md
Class 5 - Final Project - My English AI Workflow.md
Vocabulary Log.md
Sentence Frames I Can Use.md
Personal AI Safety Checklist.md

Presentation Tip

Speak slowly. Pause after each step word: first, next, then, finally.

Next

Next, bring this draft and your complete portfolio folder to **Class 5**. In Class 5 you will combine your toolkit, add your AI safety checklist and reusable assistant prompt, and present your workflow in English.

13 Class 5: Final English AI Decision Toolkit

Duration: 2 hours

Your Path

You are in: Class 5 (final class)

Before this: Self-Practice 5

After this: Final portfolio submission

Save this:

- English AI Decision Toolkit/Class 5 - My AI Decision Assistant Prompt.md
- English AI Decision Toolkit/Class 5 - Final Project - My English AI Workflow.md

13.1 Start Here

Open your folder. Look at what you already have:

- a Class 1 English AI prompt
- a Class 2 decision matrix
- a Class 3 source-grounded answer
- a Class 4 visual description and 60-second script
- self-practice files for each class
- a growing vocabulary log

Four weeks ago, many of these words were new. Now they are part of your English. You have built real skills: asking, comparing, checking, deciding, and explaining in English with the help of AI.

Today you will put your skills together into **one personal toolkit** you can keep and use after this course ends.

13.2 Why This Matters

Tools are most useful when you can find them again later. After this class, your toolkit can help you choose a study plan, prepare for an interview, compare apartments, explain a public notice, or talk to a teacher in English. You will not have to start from zero. You will already know how to ask, how to check, and how to decide — safely, in English.

13.3 Today You Will

By the end of this lesson, you will:

1. Build your own Personal AI Safety Checklist.
2. Create a reusable “AI Decision Assistant” prompt you can use later.
3. Combine all your class files into one English AI Decision Toolkit.
4. Present or share your workflow in simple English with a partner or group.
5. Save:
 - English AI Decision Toolkit/Class 5 - My AI Decision Assistant Prompt.md
 - English AI Decision Toolkit/Class 5 - Final Project - My English AI Workflow.md

Lesson Reference

This is the curriculum focus for today. Open this box to see the full lesson plan. You do not need to memorize it — use it as a quick guide.

Theme: Students combine AI skills and English skills into a reusable workflow.

AI Focus: Personal AI workflow and safety.

ESL Focus: Presentation, reflection, process explanation, and future-use language.

Content Objective: Students will build and present a personal English AI Decision Toolkit.

Language Objective: Students will explain their AI workflow in simple English.

```
First, I...
Next, I...
Then, I...
After that, I...
Finally, I...
I will use this when...
I need to be careful because...
```

13.4 Beginner Explanation

A **workflow** is a process you can use again and again. Your personal English AI workflow helps you ask, check, compare, decide, and explain — in English, safely. Your final toolkit is the place where all of this lives: your prompts, your decisions, your sources, your scripts, and your safety rules. It shows your English growth and your safe AI habits.

Figure 13.1: The final English AI Decision Toolkit workflow.

In simple English: your toolkit shows how you use AI safely, check answers, make decisions, and save your work.

13.5 Key Vocabulary

Word	Simple Meaning	Example Sentence
workflow	A repeatable process	My workflow helps me check AI answers.
template	A reusable format	I saved a prompt template.
guardrail	A safety rule	My guardrail is: do not share private data.
portfolio	A collection of work	My portfolio has five class files.
reflection	Thinking about learning	My reflection explains what improved.
final decision	The choice I make	AI helps, but I make the final decision.

13.6 Sentence Frames

```
My project is about _____.  
First, I _____.  
Next, I checked _____.  
Then, I changed _____.
```

Finally, I decided _____.
I will use this workflow when _____.
I need to be careful because _____.

13.7 Class Agenda

	Time	Activity	Purpose
	15 min	Warm-up: portfolio check	Confirm required files.
	20 min	Mini-lesson: personal AI safety checklist	Build reusable guardrails.
	25 min	Guided practice: AI decision assistant prompt	Create a reusable final prompt.
	30 min	Final project work time	Complete final portfolio file.
	20 min	Final presentation or pair share	Present workflow in English.
	10 min	Final reflection and submission	Submit or save toolkit.

13.8 Guided Practice

13.8.1 Warm-Up: Portfolio Check

Open your folder:

English AI Decision Toolkit/

Before Class 5, you should have:

- Class 1 - My First English AI Prompt.md
- Self-Practice 1 - Prompt Practice and Vocabulary Log.md
- Class 2 - English Decision Matrix.md
- Self-Practice 2 - Revised Prompt and Matrix.md
- Class 3 - Source-Grounded Answer in English.md
- Self-Practice 3 - Source Check and Paraphrase.md

13.8.2 Mini-Lesson: Personal AI Safety Checklist

Copy and adapt:

```
# Personal AI Safety Checklist
```

Before I use AI, I ask:

1. Is this task safe for AI?
2. Am I sharing private information?
3. Do I need a source?
4. Could this affect money, health, legal status, school, or work?
5. What would happen if the AI is wrong?
6. How will I verify the answer?
7. What final decision is still mine?
8. Can I explain my answer in English?

13.8.3 Guided Practice: My AI Decision Assistant Prompt

```
# My AI Decision Assistant Prompt
```

You are helping me think through a decision.
Do not make the decision for me.
Use simple English.
Ask questions if important information is missing.
Separate facts from assumptions.
Give me a decision matrix.
Tell me what I should verify before acting.

Decision:

[Write my decision]

Options:

- 1.
- 2.
- 3.

What matters most to me:

- 1.
- 2.
- 3.

Limits:

- Do not invent facts.
- Do not use private information.
- Tell me when professional advice is needed.

Output format:

1. Summary of my decision
2. Decision matrix
3. Pros and cons
4. Missing information
5. Risks
6. Next best step
7. Three useful English phrases for explaining my decision

Missing information I need to check:

- 1.
- 2.
- 3.

Final human decision reminder:

AI can help me compare. I make the final decision.

13.9 Independent Practice

Use your Self-Practice 5 presentation draft and create the final project file.

Class 5 - Final Project - My English AI Workflow

My task:

[write task]

Why this task matters:

[write 2-3 sentences]

Prompt I used:

[paste prompt]

AI helped me by:

[write 2-3 sentences]

I checked the answer by:

[write method]

Important vocabulary:

- 1.
- 2.
- 3.
- 4.
- 5.

My final decision or next step:

[write decision]

What I will do carefully:

[privacy/safety rule]

Reflection:

I can use AI in English to _____.

I still need to practice _____.

13.10 Pair Speaking or Presentation Task

Give a 1-2 minute presentation or pair share.

Presentation frame:

Hello, my name is _____.

My project is about _____.

First, I used AI to _____.

Next, I checked _____.

Then, I changed _____.

I learned the words _____, _____, and _____.

I will use this workflow when _____.

I need to be careful because _____.

Thank you.

13.11 Reflection

One AI skill I learned is _____.
One English skill I practiced is _____.
One safety rule I will remember is _____.
One way I will use this after class is _____.

13.12 Exit Ticket

Submit or save:

1. Completed English AI Decision Toolkit.
2. Class 5 - My AI Decision Assistant Prompt.md.
3. Class 5 - Final Project - My English AI Workflow.md.
4. Personal AI Safety Checklist.md.
5. 1-2 minute presentation or written reflection.

Optional Colab Lab

This lab is optional. Use it only if your teacher asks or if you want extra practice. You do not need to complete the lab to finish your portfolio.

Open the **Class 5 Toolkit Builder** lab in Colab to assemble your portfolio checklist, safety checklist, decision assistant prompt, and final reflection:

<https://colab.research.google.com/github/zoni-group/E4A/blob/public-cdba759557f5/english-for-ai-course/interactives/class-05-toolkit-builder.ipynb>

Use safe examples only. Do not enter private information.

The lab uses **Colab AI** automatically when it is available in the Colab runtime. Colab AI can review your workflow prompt and reflection, but it must not write the final portfolio for you and must not certify your work as finished. If Colab AI is not available, the regular lab steps still work.

After any AI answer, say: *“I checked the AI answer before I used it.”*

Check Yourself

Your final portfolio is ready when:

- ☐ All required files are in your **English AI Decision Toolkit** folder with the correct names.
- ☐ Your workflow is clear: how you ask, check, compare, decide, and explain.
- ☐ Your reflection names one AI skill you learned AND one English skill you grew.

- ☐ Your personal AI safety checklist is in the folder.
- ☐ Private information has been removed; the final decision is yours.

! Required Portfolio Artifact

Save your final project here:

`English AI Decision Toolkit/Class 5 - Final Project - My English AI Workflow.md`

Save your reusable prompt here:

`English AI Decision Toolkit/Class 5 - My AI Decision Assistant Prompt.md`

Your final submission should include:

`Class 1 - My First English AI Prompt.md`
`Self-Practice 1 - Prompt Practice and Vocabulary Log.md`
`Class 2 - English Decision Matrix.md`
`Self-Practice 2 - Revised Prompt and Matrix.md`
`Class 3 - Source-Grounded Answer in English.md`
`Self-Practice 3 - Source Check and Paraphrase.md`
`Class 4 - Visual Description and 60-Second Script.md`
`Self-Practice 4 - Visual Speaking Practice.md`
`Self-Practice 5 - Presentation Draft and Checklist.md`
`Class 5 - My AI Decision Assistant Prompt.md`
`Class 5 - Final Project - My English AI Workflow.md`
`Vocabulary Log.md`
`Sentence Frames I Can Use.md`
`Personal AI Safety Checklist.md`

14 Vocabulary Bank

Use This Page When...

Use this page when you forget a course word, need an example sentence, or want to grow your Vocabulary Log.md. Search with Ctrl+F (or Cmd+F) for the word you need.

Students keep a personal vocabulary log during every class and self-practice assignment.

14.1 How to Use This Bank

1. Read the word.
2. Read the simple meaning.
3. Say the example sentence.
4. Write your own sentence.
5. Add a translation or note if it helps you learn.

14.2 Core Vocabulary by Class

Course Part	Word	Simple Meaning	Example Sentence
Class 1	AI	A computer system that can create answers, text, images, or other outputs	I used AI to organize my ideas.
Class 1	prompt	The instruction or question you give AI	My prompt asks for a simple email.
Class 1	output	The answer from AI	The output was too long.
Class 1	context	Background information	I gave context about my schedule.
Class 1	revise	Improve after checking	I revised my prompt.

Course Part	Word	Simple Meaning	Example Sentence
Class 1	private	Not for everyone to see	My address is private.
Self-Practice 1	format	The shape of the answer	I asked for a table format.
Self-Practice 1	variation	A different version	I wrote three prompt variations.
Class 2	option	A choice	Bus and train are two options.
Class 2	compare	Look at two or more things	I compare the cost and time.
Class 2	criteria	The things that matter	My criteria are cost and safety.
Class 2	risk	A possible problem	The risk is arriving late.
Class 2	evidence	Information that supports an answer	The price is evidence.
Class 2	decision	A choice after thinking	My decision is to take the bus.
Self-Practice 2	matrix	A table for comparing choices	I used a decision matrix.
Self-Practice 2	assumption	Something I think is true but need to check	My assumption is that the bus is on time.
Class 3	source	The original text or information	The source is a school policy.
Class 3	citation	A note that shows where information came from	I need a citation for this answer.
Class 3	quote	Exact words from a source	I used a short quote.
Class 3	paraphrase	The same idea in your own words	I paraphrased the rule.
Class 3	hallucination	An AI answer that may be wrong or unsupported	The AI hallucinated a date.
Self-Practice 3	supported	Backed up by a source	This answer is supported.
Self-Practice 3	unsupported	Not backed up by a source	This answer is unsupported.
Class 4	image	A picture	The image shows a classroom.

Course Part	Word	Simple Meaning	Example Sentence
Class 4	license	Permission to use something	The image has an open license.
Class 4	attribution	Giving credit to the creator	I wrote an attribution.
Class 4	caption	Short text near an image	The caption explains the picture.
Class 4	script	Written words prepared before speaking	I wrote a script for my call.
Class 4	pronunciation	How words sound	I practiced pronunciation.
Class 4	consent	Permission	I need consent to use a voice recording.
Class 4	feedback	Advice to improve	My partner gave feedback.
Self-Practice 5	portfolio	A collection of work	My portfolio shows my learning.
Self-Practice 5	presentation	A short talk	I practiced my presentation.
Class 5	workflow	A repeatable process	My workflow helps me check AI answers.
Class 5	template	A reusable format	I saved a prompt template.
Class 5	guardrail	A safety rule	My guardrail is: do not share private data.
Class 5	reflection	Thinking about learning	My reflection explains what improved.
Class 5	final decision	The choice I make	AI helps, but I make the final decision.

14.3 Blank Vocabulary Log Template

Copy this table into:

English AI Decision Toolkit/Vocabulary Log.md

Word	Part of Speech	Simple Meaning	My Sentence	Translation or Note
prompt	noun	instruction for AI	My prompt was clear.	
source	noun	original information	I checked the source.	
compare	verb	look at differences	I compare two options.	
evidence	noun	proof or support	The evidence is in the text.	
privacy	noun	keeping information safe	I protect my privacy.	

14.4 Vocabulary Practice Routine

Use this routine for each new word:

1. I can say the word.
2. I can match the word to a simple meaning.
3. I can write the word in a sentence.
4. I can use the word in my portfolio.
5. I can explain the word to a partner.

15 Sentence Frames

Use This Page When...

Use this page when you need help starting an English sentence — for asking AI, comparing options, using sources, describing visuals, speaking politely, giving feedback, presenting, or reflecting. Copy a frame and fill in the blanks.

Sentence frames help you write and speak in English. You can copy a frame and add your own words.

15.1 Asking AI for Help

```
I need help with _____.  
Please explain _____ in simple English.  
Give me a list of _____.  
Use a table to show _____.  
Ask me questions before you answer.  
Do not include _____.
```

15.2 Using the ZONI CLEAR Prompt Scaffold

```
Context: I am _____.  
Limit: Do not _____.  
Example: Use this style: _____.  
Ask: Please help me _____.  
Review: Before answering, check _____.
```

15.3 Comparing Options

Option A is cheaper than Option B.
Option B is more convenient than Option A.
The best option for me is _____ because _____.
Before I decide, I need to check _____.
AI helped me compare, but I chose _____.

15.4 Using Sources

The source says _____.
According to the text, _____.
This means _____.
The answer is not in the source.
I cannot answer from the provided source.
I need more information about _____.

15.5 Describing Visuals

The image shows _____.
There is _____.
There are _____.
The purpose of the image is _____.
The caption says _____.
The source of this image is _____.

15.6 Polite Speaking

Hello, my name is _____.
I am calling/writing about _____.
I would like to _____.
Could you please _____?
Please let me know _____.
Thank you for your help.

15.7 Giving Feedback

One thing that is clear is _____.
One thing to improve is _____.
One word to practice is _____.
One question I have is _____.
One privacy concern is _____.

15.8 Presenting

My project is about _____.
First, I _____.
Next, I _____.
Then, I _____.
Finally, I _____.
I learned _____.
I will use this when _____.

15.9 Reflection Frames

Today I learned _____.
One English skill I practiced is _____.
One AI skill I practiced is _____.
One safety rule I will remember is _____.
One thing I still need to practice is _____.

16 Student Workbook

Use This Page When...

Use this page when you need to copy a worksheet template, set up a portfolio file, or check the final submission list. Every class and self-practice has a matching worksheet block below.

Track Your Progress

This workbook does not repeat the full progress table. Track your work in two places:

- The **My Progress** table in the **Orientation** chapter — check off each class, self-practice, and reference file as you finish it.
- The **Final Submission Checklist** at the bottom of this workbook — use it at the end to confirm every required file is in your **English AI Decision Toolkit** folder.

If a row is missing or unclear, ask your teacher.

AI Check Boxes (Optional)

Some Optional Colab Labs use **Colab AI** when it is available. Use this short checklist every time you see an AI answer in a lab. You can also copy these boxes next to any class artifact where AI helped you.

- ☐ I used only safe information.
- ☐ I checked whether AI invented anything.
- ☐ I know one fact I will verify.
- ☐ I kept, changed, or rejected each part on purpose.
- ☐ I made the final decision myself.

You do **not** need successful AI generation to finish your portfolio. If Colab AI is unavailable, finish the regular lab step and tick the boxes that still apply.

This workbook collects the major student worksheets for the course. Your teacher may give you this as a website, PDF, Word file, or printed packet.

16.1 Student Course Overview

In this course, you will practice English while you learn safe AI skills. You will write prompts, compare options, check sources, describe visuals, write a speaking script, and present a final toolkit.

Your final portfolio is called:

```
English AI Decision Toolkit
```

16.2 Portfolio Setup Instructions

1. Create a folder named `English AI Decision Toolkit`.
2. Save every class and self-practice file in this folder.
3. Use clear file names.
4. Save important work outside the AI tool.
5. Do not save private documents in the folder.

16.3 Class 1 Worksheet: My First English AI Prompt

Save as:

```
English AI Decision Toolkit/Class 1 - My First English AI Prompt.md
```

```
# Class 1 - My First English AI Prompt
```

```
My task:
```

```
My prompt:
```

```
AI answer summary:
```

```
Words I learned:
```

- ```
1.
2.
3.
```

```
What I checked:
```

```
What I should not share:
```

## 16.4 Self-Practice 1 Worksheet: Prompt Practice and Vocabulary

Save as:

English AI Decision Toolkit/Self-Practice 1 - Prompt Practice and Vocabulary Log.md

```
Self-Practice 1 - Prompt Practice and Vocabulary Log
```

```
Part 1: Prompt Review
```

My prompt asks AI to:

My context is:

The format I requested is:

One thing AI should avoid is:

```
Part 2: Three Prompt Variations
```

Task:

Prompt 1 - Short:

Prompt 2 - More Context:

Prompt 3 - Clear Format:

```
Part 3: Output Comparison
```

Prompt 1 was useful because \_\_\_\_\_.

Prompt 2 was better because \_\_\_\_\_.

Prompt 3 was clearest because \_\_\_\_\_.

The best prompt was Prompt \_\_\_ because \_\_\_\_\_.

One answer I should verify is \_\_\_\_\_.

One private detail I did not share is \_\_\_\_\_.

```
Reflection
```

One prompt skill I practiced is \_\_\_\_\_.

One English word I understand better is \_\_\_\_\_.  
One privacy rule I will remember is \_\_\_\_\_.

## 16.5 Class 2 Worksheet: English Decision Matrix

Save as:

English AI Decision Toolkit/Class 2 - English Decision Matrix.md

```
Class 2 - English Decision Matrix
```

Decision:

Options:

- A.
- B.
- C.

| Criteria    | Importance 1-5 | Option A | Option B | Option C | Evidence / Notes |
|-------------|----------------|----------|----------|----------|------------------|
| Cost        |                |          |          |          |                  |
| Time        |                |          |          |          |                  |
| Convenience |                |          |          |          |                  |
| Quality     |                |          |          |          |                  |
| Risk        |                |          |          |          |                  |

My decision for now:

My reason:

I chose \_\_\_\_\_ because \_\_\_\_\_.

What I need to check:

- 1.
- 2.
- 3.

## 16.6 Self-Practice 2 Worksheet: Revised Prompt and Matrix

Save as:

```
Self-Practice 2 - Revised Prompt and Matrix
```

```
Part 1: Revised English Prompt
```

My original prompt was:

My revised prompt is:

I improved it by adding:

- Context:
- Limits:
- Output format:
- Review instruction:

```
Part 2: Practice Decision Matrix
```

Decision:

Options:

A.

B.

| Criteria    | Option A | Option B | Notes |
|-------------|----------|----------|-------|
| Cost        |          |          |       |
| Time        |          |          |       |
| Convenience |          |          |       |
| Risk        |          |          |       |

My choice for now:

I chose this because \_\_\_\_\_.

Before I decide, I need to check \_\_\_\_\_.

## 16.7 Class 3 Worksheet: Source-Grounded Answer

Save as:

### # Class 3 - Source-Grounded Answer in English

Question:

Key words in the question:

- 1.
- 2.
- 3.

Short answer:

Evidence:

The source says: "[short quote]"

Paraphrase:

This means \_\_\_\_\_.

What is unclear:

What I should check next:

## 16.8 Self-Practice 3 Worksheet: Source Check and Paraphrase

Save as:

Visual attribution:
- Title:
- Creator:
- Source:
- License or permission:
- Changes made:
- Attribution note:

Part 2: Improved Visual Description

The image shows _____.
There is _____.
There are _____.
The purpose of the image is _____.
One detail I should remove or change is _____.

Part 3: Revised Speaking Script

Hello, my name is _____.
I want to explain _____.
The visual shows _____.
This is important because _____.
One thing to remember is _____.
Please _____.
Thank you.

Part 4: Pronunciation Practice

My script time was:
Attempt 1: ___ seconds
Attempt 2: ___ seconds
Attempt 3: ___ seconds
```

One word I practiced is \_\_\_\_\_.  
One sentence I can say more clearly is \_\_\_\_\_.

#### ## Part 5: Consent and Safety Check

- [ ] I did not use private photos.
- [ ] I did not record another person without permission.
- [ ] I checked the image license or made the image myself.
- [ ] I wrote the image title, creator, source, permission, and changes made.

## 16.11 Self-Practice 5 Worksheet: Presentation Draft and Checklist

Save as:

English AI Decision Toolkit/Self-Practice 5 - Presentation Draft and Checklist.md

#### # Self-Practice 5 - Presentation Draft and Checklist

##### ## Before Class 5 Checklist

- [ ] I have my Class 1 prompt.
- [ ] I completed Self-Practice 1.
- [ ] I have my Class 2 decision matrix.
- [ ] I completed Self-Practice 2.
- [ ] I have my Class 3 source-grounded answer.
- [ ] I completed Self-Practice 3.
- [ ] I have my Class 4 visual description and script.
- [ ] I completed Self-Practice 4.
- [ ] I completed Self-Practice 5.
- [ ] I updated my vocabulary log.
- [ ] I drafted or updated my personal AI safety checklist.

##### ## Final Project Choice

My final project task is:

This task is safe for AI because:

Private information I will not share:

## ## Final Safety Checklist

- [ ] My task is safe for AI practice.
- [ ] I removed private information.
- [ ] I know what I need to verify.
- [ ] I can explain my decision in English.
- [ ] I know that I make the final decision.

## ## Presentation Draft

Hello, my name is \_\_\_\_\_.  
My project is about \_\_\_\_\_.  
First, I used AI to \_\_\_\_\_.  
Next, I checked \_\_\_\_\_.  
Then, I changed \_\_\_\_\_.  
I learned the words \_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.  
I will use this workflow when \_\_\_\_\_.  
I need to be careful because \_\_\_\_\_.  
Thank you.

## 16.12 Class 5 Worksheet: My AI Decision Assistant Prompt

Save as:

English AI Decision Toolkit/Class 5 - My AI Decision Assistant Prompt.md

### # Class 5 - My AI Decision Assistant Prompt

You are helping me think through a decision.  
Do not make the decision for me.  
Use simple English.  
Ask questions if important information is missing.  
Separate facts from assumptions.  
Give me a decision matrix.  
Tell me what I should verify before acting.

Decision:  
[write my decision]

Options:

- 1.
- 2.
- 3.

What matters most to me:

- 1.
- 2.
- 3.

Limits:

- Do not invent facts.
- Do not use private information.
- Tell me when professional advice is needed.

Output format:

1. Summary of my decision
2. Decision matrix
3. Pros and cons
4. Missing information
5. Risks
6. Next best step
7. Three useful English phrases for explaining my decision

Missing information I need to check:

- 1.
- 2.
- 3.

Final human decision reminder:

AI can help me compare. I make the final decision.

## 16.13 Class 5 Worksheet: Final Project

Save as:

English AI Decision Toolkit/Class 5 - Final Project - My English AI Workflow.md

# Class 5 - Final Project - My English AI Workflow

My task:

Why this task matters:

Prompt I used:

AI helped me by:

I checked the answer by:

Important vocabulary:

- 1.
- 2.
- 3.
- 4.
- 5.

My final decision or next step:

What I will do carefully:

Reflection:

I can use AI in English to \_\_\_\_\_.

I still need to practice \_\_\_\_\_.

## 16.14 Vocabulary Log

---

| Word | Part of Speech | Simple Meaning | My Sentence | Translation or Note |
|------|----------------|----------------|-------------|---------------------|
|------|----------------|----------------|-------------|---------------------|

---

## 16.15 Sentence Frames I Can Use

I need help with \_\_\_\_\_.  
The best option for me is \_\_\_\_\_ because \_\_\_\_\_.  
The source says \_\_\_\_\_.  
This means \_\_\_\_\_.  
The image shows \_\_\_\_\_.  
First, I \_\_\_\_\_. Next, I \_\_\_\_\_. Finally, I \_\_\_\_\_.

## 16.16 Final Submission Checklist

- ☐ Class 1 - My First English AI Prompt.md
- ☐ Self-Practice 1 - Prompt Practice and Vocabulary Log.md
- ☐ Class 2 - English Decision Matrix.md
- ☐ Self-Practice 2 - Revised Prompt and Matrix.md
- ☐ Class 3 - Source-Grounded Answer in English.md
- ☐ Self-Practice 3 - Source Check and Paraphrase.md
- ☐ Class 4 - Visual Description and 60-Second Script.md
- ☐ Self-Practice 4 - Visual Speaking Practice.md
- ☐ Self-Practice 5 - Presentation Draft and Checklist.md
- ☐ Class 5 - My AI Decision Assistant Prompt.md
- ☐ Class 5 - Final Project - My English AI Workflow.md
- ☐ Vocabulary Log.md
- ☐ Sentence Frames I Can Use.md
- ☐ Personal AI Safety Checklist.md

## 16.17 Final Safety Check

- ☐ I removed private information.
- ☐ I checked important information.
- ☐ I wrote my final decision in English.
- ☐ I practiced my presentation.

## 16.18 Personal AI Safety Checklist

Before I use AI, I ask:

1. Is this task safe for AI?
2. Am I sharing private information?
3. Do I need a source?

4. Could this affect money, health, legal status, school, or work?
5. What would happen if the AI is wrong?
6. How will I verify the answer?
7. What final decision is still mine?
8. Can I explain my answer in English?

# 17 AI Safety and Privacy

## Use This Page When...

Use this page **before** you put any information into an AI tool, and whenever you are not sure if a task or example is safe. The privacy rules, high-stakes warnings, source-checking routine, and consent rules below also live inside your **Personal AI Safety Checklist.md**.

## 17.1 Student Privacy Rules

Do not enter private information into AI tools.

Private information includes:

- passwords
- bank information
- Social Security numbers or national IDs
- immigration documents
- private medical records
- private addresses
- school records without approval
- employer documents without approval
- photos of other people without permission
- voice recordings of other people without permission
- full names of minors
- private family information

Use safe examples instead. Replace real names with names like “Student A” or “my teacher.”

## 17.2 High-Stakes Topic Warnings

High-stakes topics can affect health, legal status, money, safety, school, or work.

Examples:

- medical decisions
- legal problems
- immigration
- financial contracts
- taxes
- safety emergencies
- mental health crises
- school discipline
- employment contracts

For these topics, AI may help you:

- make a question list
- learn vocabulary
- organize notes
- prepare for a conversation

AI should not be the final authority. Ask a qualified person.

## 17.3 Safe vs Unsafe AI Use

| Situation        | Safer Use                                                | Unsafe Use                                   |
|------------------|----------------------------------------------------------|----------------------------------------------|
| English practice | Ask for vocabulary practice.                             | Share private school records.                |
| Job interview    | Practice common interview answers.                       | Upload a private employer document.          |
| Health           | Learn words to ask a doctor.                             | Ask AI to diagnose a serious problem.        |
| Money            | Make a simple budget example.                            | Ask AI to choose a loan or contract for you. |
| Immigration      | Learn vocabulary for an appointment.                     | Upload immigration papers.                   |
| Images           | Use ZONI-provided, open-license, or self-created images. | Use a person's photo without permission.     |
| Audio            | Practice your own script.                                | Clone or imitate another person's voice.     |

## 17.4 Source-Checking Routine

Use this routine for important answers:

1. Ask: What is the source?
2. Check the source title or link.
3. Find the sentence that supports the answer.
4. Use a short quote.
5. Paraphrase in simple English.
6. Ask: What is missing?
7. If the source does not answer, write: I cannot answer from the provided source.

## 17.5 Consent Rules for Images and Audio

Consent means permission.

Follow these rules:

- Do not use another person's face without permission.
- Do not record another person's voice without permission.
- Do not use full names of minors.
- Do not create misleading images of real people.
- Do not imitate or clone another real person's voice.
- Use your own voice for practice if recording is allowed.
- Use ZONI-provided, open-license, self-created, or teacher-provided visuals.

## 17.6 Using Colab AI Safely

Some Optional Colab Labs use Google's built-in **Colab AI** when it is available in the Colab runtime. Follow these rules every time you use a Colab AI cell:

- **Do not type private information.** No real names, addresses, ID numbers, passwords, school records, medical, legal, immigration, financial, or employer documents.
- **Use safe examples only.** Replace real details with safe, public-style content such as Student A, my teacher, the public library, or a community event.
- **AI may be wrong.** Read every AI answer carefully and check it against a real source before you use it.
- **AI is a helper, not the final author.** Save your real work as Markdown in your portfolio folder, not inside the AI tool.
- **You make the final decision.** AI can suggest, compare, and simplify; AI cannot decide for you.
- **If Colab AI is unavailable, continue with the regular lab steps.** The lab will still finish your portfolio task. Successful AI output is never required for portfolio completion.

- **The labs load a small helper file at start-up.** The first cell of every lab loads `interactives/e4a_colab.py` from this repository’s public GitHub raw URL. You do not need to read this file. If it cannot load (no network, GitHub outage), the cell shows a short friendly message and the rest of the lab still runs — you can finish your portfolio using the regular worksheet steps in this book. There are **no API keys** and **no external AI SDKs**. Colab AI is reached only through Google Colab’s built-in helper, and only when it is available.

Available Colab AI models can change over time depending on account, region, runtime, or Colab limits. The lab will pick a working model if one is available.

## 17.7 Vendor Lock-In Avoidance Guide

Vendor lock-in means your work is stuck inside one tool or platform.

To avoid lock-in:

1. Save important work outside the AI tool.
2. Keep prompts reusable.
3. Use open or common formats.
4. Avoid private uploads.
5. Keep a copy of your final files.
6. Ask: Can I export my work if this tool disappears?
7. Learn the workflow, not only one brand name.

## 17.8 Open Formats Guidance

Good formats for this course:

| Type              | Recommended Formats          |
|-------------------|------------------------------|
| Text              | .md, .txt, .docx, .pdf       |
| Tables            | .csv, .ods, .xlsx if needed  |
| Images            | .png, .svg, .jpg             |
| Audio             | .wav, .ogg, .mp3 if required |
| Portfolio archive | .zip                         |

When possible, save both an editable version and a shareable version.

**! Final Decision Rule**

AI helps. Sources help. Teachers help. The student still makes the final decision for their own work.

# 19 References and Learning Sources

This page shows where some course methods come from. References help us learn how to give credit. They also remind us that good classroom tools are often adapted from work by many people.

You do not need to memorize these sources. Use them as a map when you want to learn more, check a method, or model good attribution.

## ZONI Course Materials

The lessons, worksheets, examples, and current course images are ZONI-owned or ZONI-provided course assets unless another source is named.

## 19.1 Course Method Map

| Course idea                | Learning source                                                                                                                                                        |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ZONI CLEAR prompt scaffold | This course uses a beginner English scaffold. It is different from Leo S. Lo’s CLEAR framework for prompt engineering (Lo 2023).                                       |
| Decision matrix            | The Class 2 activity adapts the decision matrix, also called a Pugh matrix, decision grid, or selection matrix (American Society for Quality n.d.).                    |
| Source-grounded answers    | Class 3 uses a simple classroom routine informed by research on hallucination, factuality, and retrieval-augmented generation (Maynez et al. 2020; Lewis et al. 2020). |
| Source checking            | The course’s “stop and check” habit connects to Mike Caulfield’s web literacy and SIFT work (Caulfield 2017, 2019).                                                    |
| Visual attribution         | Class 4 uses Creative Commons attribution practices, especially TASL: Title, Author, Source, License (Creative Commons n.d.).                                          |

| Course idea                 | Learning source                                                                                                                                                           |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ESL scaffolding             | Content objectives, language objectives, sentence frames, vocabulary support, and sheltered instruction routines connect to SIOP-style teaching (Echevarria et al. 2017). |
| AI literacy                 | The course focuses on practical AI literacy: recognizing AI, using it carefully, checking output, and thinking about social impact (Long and Magerko 2020).               |
| Feedback tools              | Course feedback tools use clear criteria and performance descriptions (Brookhart 2013).                                                                                   |
| Course design               | The 5-class sequence and portfolio use backward design: start with the final evidence, then plan learning steps (Wiggins and McTighe 2005).                               |
| Responsible AI in education | Course safety guidance is informed by education and risk-management guidance (Miao and Holmes 2023; Tabassi 2023).                                                        |
